

2012 International Symposium on
InfoComm & Media Technology in Bio-Medical & Healthcare Application
(2012 IS-3T-in-3A)

Call for Papers

February 21-23, 2012, Chiba University, Nishi-Chiba, Japan
Conference website: <http://www.tms.chiba-u.jp/MEWeek2012/3tin3a.html>

Organizing Committee

Zhi Ning Chen (General Chair)

*Institute for Infocomm Research,
Singapore*

Wenwei Yu (General co-Chair)

Chiba University, Japan

See Kiong Ng (General co-Chair)

*Singapore University of Technology
and Design*

Technical Program Committee

Ming-yih Lee (co-Chair)

Chang Gung University, Taiwan

Yue Sheng Zhu (co-Chair)

Peking University, China

Wen Quan Che

*Nanjing University of Science &
Technology, China*

Yu Ge (Secretary)

*Institute for Infocomm Research,
Singapore*

Dongyun Gu

Shanghai Jiaotong University, China

Guo Yongxin

National University of Singapore

Chee Wee Kim

*Institute for Infocomm Research,
Singapore*

Huan Bang Li

*National Institute for Information and
Communication Technology, Japan*

Tadashi Yamaguchi

Chiba University, Japan

Terence See

*Institute for Infocomm Research,
Singapore*

Sintiani Dewi Teddy (Secretary)

*Institute for Infocomm Research,
Singapore*

Toshiya Nakaguchi

Chiba University, Japan

Peter Weiliang Xu

The University of Auckland, New Zealand

Xiao Wei Zhu

Southeast University, China

About Conference

2012 International Symposium on InfoComm & Media Technology in Bio-Medical & Healthcare Application (**2012 IS-3T-in-3A**) will be held during February 21-23, 2012 at Campus of Chiba University, Nishi-Chiba, Japan. This is the second version of IS-3T-in-3A after it was successfully held in 2010 at Lijiang, Yunnan, China. The Symposium will be jointly organized by Chiba University, Japan and Institute for Infocomm Research, Singapore, sponsored by Japan Society of Promotion of Science.

The aim of the symposium is to spur the collaborations between technology providers and adopters by establishing an international platform for exchanging knowledge about cross-disciplinary applications of information, communication and media technology in biology, medicine and healthcare. As such, the inaugural symposium will include not only technical seminars but also plenty of opportunities for the participants from academia, research institutions, and companies to interact with one another.

The symposium will include

- Keynote Speeches: overview of R&D programs and activities of bio-medical engineering in industry, clinic, and academia at a high level.
- Invited/Interactive Talks: updates of latest progress and demands in applications of InfoComm and Media technology in R&D and production of Bio-medicine and Healthcare.
- Special-Interest-Group (SIG) Discussion: exploring opportunities to collaborate with each other.

Important Dates:

December 16, 2011: Deadline of abstract submission
(half-page, A4 size, 12pt)

January 16, 2012: Deadline of Registration
